Sub: Workshop on "Exploring Krishikosh Repository to Disseminate Agricultural Knowledge" on 6-7 December, 2016 at CCSHAU, Hisar, Haryana.

Respected Sir/ Madam,

As you may be aware that, under National Agricultural Innovation Project (NAIP) an initiative was taken through sub project "Strengthening of Digital Library and Information Management under NARS (E-Granth)" at ICAR-IARI as a lead centre to provide digital access to different library resources for National Agricultural Research System (NARS) in India which comprises of Agricultural Research Institutions and Agricultural Universities. Under this initiative digital repository 'KrishiKosh' (<http://krishikosh.egranth.ac.in>) and digital library platform 'IDEAL' (<http://ideal.egranth.ac.in>) has been developed for capturing, digitizing & online sharing of the library resources in order to cater the increasing need of the Scientists, Researchers, Teachers and Extension community. These two products of E-Granth, Krishikosh and IDEAL can be used by all SAU's/Deemed Universities/Central Universities and ICAR Institutes. For strengthening and sustainability of E-Granth, ICAR has institutionalized the scheme under Division of Agricultural Education to ensure its continued services by intrusting this responsibility to AKMU, ICAR-IARI, New Delhi.
