Subject : Functioning of Scientific Societies in ICAR Units -regarding.

Sir,

A number of Scientific Societies are operating in ICAR Institutes and have been given infrastructure support in terms of building, electricity, water and other essential facilities required for day to day functioning of such Societies within the Institute Campus.

2. It has further been observed that there are no uniform guidelines / rates for recovery of charges for providing such infrastructure support. Some of the institutes are either recovering the charges on nominal basis or not recovering any charge at all. The matter was reviewed at highest level, hence, it has been decided to withdraw all these facilities provided to them immediately till the guidelines/ norms are formulated by the Council and communicated to all the Institutes. Further, the guidelines are being prepared on this issue and will be communicated as and when finalised. All the Directors may take necessary action accordingly.

3. This issues with the approval of Competent Authority.

Yours faithfully,
