

ICAR-IVRI participated in the Pt. Deen Dayal Upadhyay Vrihad Pashu Arogya Shivir/ Mela organized at Rithoura Bazar, Kalapur, Bareilly on 11th Feb. 2018

ICAR-IVRI participated in the Pt. Deen Dayal Upadhyay Pashu Arogya Shivir organized by the State Department of Animal Husbandry at Rithoura Bazar, Kalapur, Bareilly district on 11th Feb. 2018. The institute installed its exhibition on the occasion, wherein, various technologies related to animal health, production, reproduction and product processing were displayed in the form of exhibit panels and live exhibits. Various literature developed by the institute related to the technologies developed by IVRI, zoonotic diseases etc., were distributed to the livestock owners. Large number of the farmers visited the institute exhibition and showed their interest to procure various technologies and were interested to take training from IVRI. Various visitors had already visited the institute earlier and taken its services in the form of technology products / polyclinic services and were appreciating the sincere efforts of the institute employees in serving the farmers.

A total of nine scientists from various disciplines viz., Parasitology, Medicine, Surgery, LPM, CADRAD, Reproduction, Nutrition and Extension Education

participated in the Fair. They handled various types of Surgical, Medicine and Gynecological cases in the animal health camp organized on the occasion while few scientists provided diagnostic and consultancy support to the livestock owners.

Director, IVRI graced the occasion as Guest of Honour and while addressing the gathering, informed them about the

glorious 128 years history of the institute and its role in developing vaccines, diagnostics and various other health, reproduction and production related technologies and their spread in the country that helped in eradication of four important diseases while controlling the incidence of many others. Speaking on the occasion he also mentioned that the institute through its rigorous efforts in the area of research in Veterinary and Animal sciences has made a place for itself in the global arena. Various other dignitaries gracing the occasion appreciated the significant work of the institute in research, teaching and its reach among the farmers through its extension activities. A total of over 2500 animals were treated free of cost along with free dispensing of medicines in the fair.
