Holistic Approaches to Laboratory Animals Handling, Care and Ethics

7th to 9th February, 2018

Laboratory Animal Resources Section
ICAR- Indian Veterinary Research Institute
Izatnagar, Bareilly-243 122(U.P), India

Introduction: Laboratory animals such as mice, rats and guinea pigs are the most commonly used experimental animals to study the different biological activities associated with health and disease. Laboratory animals make the extreme sacrifices in order to facilitate the conceptualization, validation and establishment of scientific hypothesis. It is imperative to all of us to look in the welfare of these animals. Proper handling, care and management are ethical requirement for any experimentation on animals while generating reliable and reproducible experimental data. Therefore, laboratory animal handling, care and its management is an integral part of any research laboratories, especially laboratories of biological research.

ICAR-Indian Veterinary Research Institute is a premier Institute devoted to research and education in animal health and production. Preclinical animal experimentation is being executed in almost all the Divisions/Sections of this Institute. Regular refreshment of existing knowledge for proper care and management of laboratory animals is of paramount importance for the laboratory staff associated with animal experimentations. Therefore, the intended training program is designed to update the knowledge of technical staff and impart holistic package of practices for laboratory animal care and handling.

Objective of the training program: The training program aimed to provide hands on exposure of different techniques of laboratory animal management and care to the technical staff of Indian Council of Agriculture Research Institutes.

Course duration

The course duration is of three days, scheduled from 7th to 9th of February, 2017.

Eligibility

This training programme is open for **Technicians/Technical officers or equivalent** working in different ICAR Institutes and dealing with laboratory animals. The total number of participants will be restricted to twenty (20 Nos).

TA/DA, Boarding and Lodging

The training expenditures like TA/DA, accommodation charges, food charges have to be borne by the Sponsoring Institute of the participants. The accommodation facility will be provided at our guest house on payment basis.

Note: Please do not bring your spouse or family member during the course as there is limited accommodation availability in the guest house.

How to reach

ICAR-Indian Veterinary Research Institute, established way back in 1889, as the National Institute of Veterinary and Animal Sciences in India. It is located in Bareilly (UP). Bareilly is almost equidistance from New Delhi and Lucknow and is well connected to major cities of India by rail and road. The railways station (Bareilly Junction) and bus stand are approximately 8 and 5 km, respectively from the Institute. Taxi, auto-rickshaws are readily available round the clock both at bus stand and railway station.

Note: Selected candidate are advised to send their detail travel plan in advance through email to sumit22_mahajan@rediffmail.com

Application Procedure

Application form attached with this brochure can be photo copied or it can be downloaded from institute website www.ivri.nic.in. Dully filled application may please be send to Dr. Sumit Mahajan, Scientist & Course Coordinator, Division of Medicine, ICAR-Indian Veterinary Research Institute Izatnagar, Bareilly 243 122, (UP), latest by 24th January, 2018.

Chief Patron

Dr R. K. Singh

Director and Vice Chancellor, ICAR-IVRI

Patron

Dr B. P. Mishra

Joint Director (Research), ICAR-IVRI

Mentor

Dr Sahadeb Dey

PS, Division of Medicine, ICAR-IVRI

Course Director

Dr Amit Kumar

SS & I/C LAR Section, ICAR-IVRI

Course Coordinator

Dr Akhilesh Kumar

Scientist, Division of Medicine, ICAR-IVRI

Course Coordinator

Dr Sumit Mahajan

Scientist, Division of Medicine, ICAR-IVRI

Important Instructions

<i>Maximum number of participants</i>	20 (Twenty)
<i>Last date for receipt of application</i>	24th of January, 2018
<i>Information to selected candidates</i>	27th of January, 2018
<i>Commencement of training program</i>	7th of February, 2018

Application form

Three days training program on “Holistic Approaches to Laboratory Animals Handling, Care and Ethics” from 7th to 9th of Feb, 2018

1. Full Name (in block letters):
2. Designation:.....
3. Division/Section:
4. E-mail:5. Mobile:
6. Date of birth:7. Gender:
7. Work experience (years):
8. Detail of the training programme attended in last 2 years
 - I)
 - II).....

8. Academic Details:

Degree	University	Year of Pass
12 th		
Graduation		
Post graduation		

Place:

Signature of the applicant

Date:

Recommendation of the forwarding officer

Signature and Seal

Date:

Note: Duly filled application form may please be submitted to Dr. Sumit Mahajan, Scientist & Course Coordinator, Division of Medicine, ICAR-Indian Veterinary Research Institute Izatnagar, on or before 24th of January, 2018
