

ICAR-IVRI, Mukteswar conducted a demonstration on “use of poultry farm equipment in backyard poultry management” at Sunkhari Kala village of U.S. Nagar district

Mukteswar, 05th August 2018: ICAR- Indian Veterinary Research Institute, Mukteswar campus conducted a method demonstration at Sunkhari Kala village of Sitarganj block, U.S. Nagar, Uttarakhand on 05.08.2018 under Tribal Sub-Plan (TSP) programme. The theme of the method demonstration was “*Use of poultry farm equipment in backyard poultry management*”. A total of 64 farm families of the village participated in the programme. Dr C. Jana, TSP Coordinator briefed about the utility of various poultry farm equipment like chick drinker and poultry feeder for poultry rearing under backyard management. He also demonstrated the use of chick drinker and poultry feeders for effective use of water and poultry feed. Extension literature on poultry management under backyard system was distributed among the participants.
