

Valedictory ceremony of the six-day workshop titled “*Characterization of Proteins from Biological Samples*”

The valedictory ceremony of the six-day workshop titled “*Characterization of Proteins from Biological Samples*” was held on March 26, 2025, in the esteemed presence of Dr. Mrs.

Rupasi Tiwari, Joint Director (Ext. Edu.), ICAR-IVRI, at the Lecture Hall of the Biochemistry Division. During the event, certificates were awarded to 19 students from four different divisions who actively participated and honed their

skills in fundamental biochemical techniques for protein characterization.

Addressing the gathering, Dr. Tiwari emphasized that the training would significantly enhance the participants' ability to conduct their Master's and PhD research more efficiently and meaningfully. Dr. Raghvendar Singh, head of the Biochemistry Division highlighted the importance of this specialized

course, underscoring its role in advancing biochemical research. Dr. Mukesh Kumar, who served as the Course Director, played a pivotal role in organizing the workshop. The valedictory session was gracefully anchored by Dr. Karuna Devi (SS), while the Vote of

Thanks was delivered by Dr. Ajay Kumar (SS). The event was also attended by esteemed faculty members, including Dr. Mohini Saini (PS), Dr. Praveen Singh (PS), Dr. Manish Mahawar (PS), Dr. Meeta Suxena (STO), Puja (TO), along with other dedicated Biochemistry Division staff and students. The workshop concluded on a highly successful note, leaving the participants inspired and better equipped for their future research endeavors. The Joint Director (Ext. Edu.) also toured various laboratories within the division, assessing the available research facilities and academic infrastructure to evaluate their effectiveness in supporting ongoing scientific and educational activities.
