

TEC-IVRI Pune organised training programme on “Good Manufacturing Practices in Veterinary Vaccines” from 25th Sept. to 7th Oct. 2023

Dr Santosh Panchpor, Joint Commissioner, Department of Animal Husbandry (Maharashtra State), inaugurated the training programme on “*Good Manufacturing Practices in Veterinary Vaccines*” on 25th Sept. 2023, which was jointly organized by Training and Education Centre, IVRI, Pune and Biological Standardization Division, IVRI, Izatnagar.

During the inaugural session, Dr HP Aithal, Station In-charge, TEC Pune briefed dignitaries and trainees regarding the ongoing activities of the Centre. He informed that this training programme has tailor-made sessions with experts from different campuses of IVRI and industry for addressing the needs of trainees about production of quality veterinary biologicals. He further encouraged trainees to take maximum benefit from the training. Dr Sanghratna V Bahire, Course Coordinator, briefed about the schedule and importance of training to the participants. While delivering the inaugural speech, Dr Santosh Panchpor, In-charge IVBP and the Chief Guest, highlighted the importance of implementing Good Manufacturing Practices and urged all the trainees to adhere to these guidelines for the best quality production of veterinary biologicals. He motivated the participants to work for the welfare of livestock farmers by providing quality vaccines. He also appreciated the efforts of TEC, Pune for regularly organizing need-based training programmes, which are crucial for the capacity building of veterinary professionals. Dr YP Pathan, In-charge DIS and Guest of Honour for the inaugural function urged the participants to keep themselves updated with the changing regulatory guidelines of GMP in vaccine production. He congratulated TEC-IVRI Pune for organising such an important training. Dr Anil Deshpande, Deputy Commissioner, QC, IVBP, Pune; Dr Maruti Ingawale, and Dr SK Das, Principal Scientist were also present during the inaugural session. A total of 37 officials participated in the training. The programme was compered by Dr Amol K Bhalerao, who also proposed vote of thanks. The first lecture on chemical testing of raw material used in vaccine production was delivered by Dr Maruti Ingawale.

The 10-day training programme included offline and online lectures from GMP and vaccine experts from across the country. The lectures included basic concepts of GMP, personal hygiene, clean room concept, cleaning and sanitation, basics of bacterial/viral vaccine processes, GMP of upstream and downstream process/storage/warehouse, bio-safety, record keeping, complaints corrective actions/preventive actions, BSL-III/IV, LSD, Goat pox, PPR, and Poultry vaccine etc.

The training programme concluded on 7th October 2023 in the presence of Dr Pronab Dhar, Head, Division of Biological Standardization, IVRI, Izatnagar as Chief Guest. He suggested the participants to follow all GMP guidelines for quality vaccine production and safety. The training progress report was presented by Dr Sanghratna Bahire. Dr HP Aithal congratulated all the participants for gaining knowledge on GMP and distributed certificates to the trainees. Many

participants expressed their views and gave positive feedback on the training. Dr Anil Deshpande proposed vote of thanks. Dr Amol Bhalerao compered the programme.
