Valedictory event of the One-week training program on “Veterinary vaccines and vaccination: Principles and practices under field conditions”

The ICAR - Indian Veterinary Research Institute (IVRI), Hebbal campus, Bengaluru, Karnataka, is conducting a 7-day training program on “Veterinary Vaccines and Vaccination: Principles and Practices Under Field Conditions” from 05-11, March 2025. On the occasion of the valedictory event on 11 March 2025, Dr. Pallab Chaudhuri, Joint Director, extended a warm welcome to Dr. A. Sahoo, Director, ICAR—NIANP, Chief Guest, Dr. A. Dhali, Head, ICAR-NDRI, SRS, Adugoudi, Guest of Honor, and all the participants. He also thanked Dr. Manjunath S Palegar, Director, Department of AHVS, Government of Karnataka, for deputing the veterinary officers to the training program. Dr. B. H. Manjunatha Patel, Co-ordinator of the training, presented the report on the theory and practical classes covered as well as the field visits to Animal Experiment Station, Yelahanka and ICAR-NIVEDI. During the feedback session, participants expressed their satisfaction with the overall learning experience, especially regarding their exposure to vaccine production units and the demonstration of bacterial vaccine production. Since veterinarians are the frontline workers responsible for administering vaccines in disease control programs under field conditions, they urged the organizers to extend the training program to all veterinarians practicing in every district of Karnataka. Chief guest, Dr. A. Sahoo appreciated the relevance of the program and urged to repeat it. Dr. A. Dhali emphasized such training programs

are important as the field veterinarians execute the mass vaccination campaign for FMD. The guests distributed the certificates to the participants and the event ended with vote of thanks by Dr. Priyanka. The program was also attended by all the scientists and staff of the IVRI, Bengaluru campus.
